Installation

To secure a power cable in place, using C14 / C20 EZ-Lok Plug Connector, do the following:

1. Slide and attach the EZ-Lok Plug Connector onto a C14 or C20 plug until it clicks into place.

C14   C20

2. Insert the plug, with the EZ-Lok Plug Connector attached, into any available socket on a PDU by sliding it directly over and straight into the socket.

C14   C20

3. To disconnect the plug from the PDU, grip onto and squeeze the EZ-Lok Plug Connector as you pull and detach the plug from the PDU socket.
